

Welwyn-Hatfield U3A - Photography policy

From time to time photographs of individuals and groups of members are taken during U3A meetings, group activities and outings. These images are not used for commercial purposes but for members' interest to support articles in newsletters and on the Welwyn Hatfield U3A website etc. Should you not wish to be part of an image please make this clear, prior to the picture being taken, to the photographer or step out of group or the area being photographed.

Where an image is likely to be sent to the U3A Trust i.e. for use in the U3A magazine (Third Age Matters) you will be asked for your approval.

Members are also asked, that in line with general use of social media, images should not compromise individuals or show personal activities, invade their privacy or be intrusive. This includes not placing images of U3A members on-line when they are away from home, i.e. during a U3A holiday.
